

THE STAR PROJECT NEWSLETTER

December 2022

A Message from The Director

2022 has been a year of tremendous change for The STAR Project and we are grateful for the support and encouragement we have received through the year from so many people and organization.

For our participants, we are proud of the strides you have made and continue to make for yourself and your families. Your tenacity and determination are inspiring. Through setbacks and uncertainties, you keep pushing forward towards the life you want to live. We believe in you!

For our staff, way to step-up and dig-in! You are the heart and soul of The STAR Project, and I am impressed daily with your creativity and skills in figuring out a way to get things done as we pave a new path forward for 2023 and beyond.

The STAR Project board members, old and new, have contributed loads of belief in our mission and encouragement to keep our organizational values at the forefront as we gain stability and grow into the future. We appreciate your guidance.

The collaboration with our community partner organizations continues to contribute to the success of The STAR Project and our participants. We are grateful to be part of such a supportive and engaged community who truly are focused on improving the lives of everyone who lives here.

It is my honor to serve in the role of Executive Director for The STAR Project and I look forward to leading us all to a successful and sustainable future. Thank You,

May You and Your Family have a Wonderful & Joyous Holiday Season!

Linda Scott, Executive Director

The Gift That Lasts A Lifetime

One of the most important gifts that we can give to our children is *The Gift of Education*. Preparing our children early for the structure and interactions that school brings.

Enrolling your children into the Head Start Program will provide them with the language and literacy tools needed to ensure their successful transition into the Public School System.

Head Start's learning and activities are designed to help your child gain the skills and self-confidence needed to succeed in all aspects of an educational environment.

Head Start is a free program which also provides daily transportation to and from school.

Applications are available on-line at WWCCF.org or call The STAR Project for more information.

Valley Giving Guide

The STAR Project is proud to be part of this year's Valley Giving Guide fundraising effort. The Blue Mountain Community Foundation brings attention to many charitable organizations in our local community. Please encourage your friends, employers, and families to support The STAR Project through this campaign, which runs through December 31st. Use the QR code, visit ValleyGivingGuide.org, or call our office for more information.
