STAR 2014 Annual Report

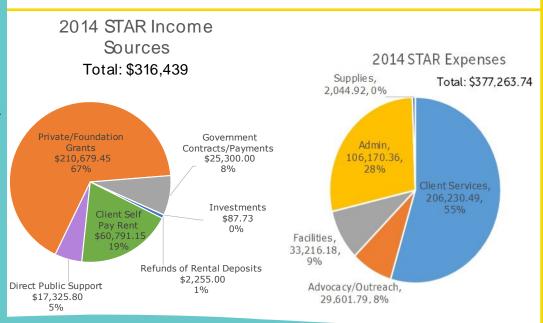

2014 was a busy year for STAR Project. We extensively renovated and then moved to a new location, created and hired four new permanent positions and expanded our capacity to gather and use data.

These advances are important in that they enable us to more thoroughly serve a larger number of clients. Our new full time case manager (James), housing coordinator (Joe), transition specialist (Kathy) and employment specialist (Lenel) have all helped to fill previously unmet needs for our clients.

Employment Success Story: Despite qualification STAR client Kathy had applied at many Walla Walla businesses unsuccessfully. She is now employed full time as an in-home health care provider. Lenel helped her rework her resume and pursued a network of employer referral leads. Kathy was offered and accepted a full-time position as an at-home healthcare provider.

Employment isn't the only program getting amazing results for clients. In response to the information that his admission status and financial aid award had been confirmed, **WSP**Transition Program client Michael responded "Thank you so very much. Your help has been absolutely invaluable to my success outside of here."
